

The Studyworks Advantage – How We Can Help You Achieve *Higher Scores*

We've been teaching the SAT for over 25 years

Studyworks is the third largest SAT prep group in America with offices from coast to coast. We have classes in North America, Europe, Japan and Singapore.

Good Prep Materials

Studyworks offers better strategies and effective time saving techniques for you to score higher on the SAT. Every minute counts on the test, and every answer correct brings you closer to a higher score. Thus, we use lots of SAT questions and supplement it with our teaching to help you learn better.

Smaller Classes = More Attention

We want to give you our undivided attention, which is why we keep our classes small at our center. We have a maximum class size of 15 students, but you're more likely to find yourself in an average group of between 6 to 9 students.

Learn at Your Own Pace

Because everyone learns at a different pace, we do our best to group students according to their test-taking ability. In this way, a faster learner won't get bored in class, while someone who needs more time won't feel rushed or pressured. You can be assured that we take your needs very seriously. So seriously, that we diagnose exactly what areas you need to improve on and focus on them.

Committed, Fully Trained Instructors

At Studyworks, we hire only the best instructors available. Our instructors are intelligent, diligent, dedicated and have undergone our rigorous teacher training program. They're also trained to make studying for the SAT fun and exciting, so you know you'll learn in a simulating environment. We use only full-time and fully dedicated instructors.

After hours Coaching

You're welcome to email our instructors outside of class any time you need help. Our instructors will usually respond within 24 hours. We have an open door policy, and always welcome your questions and feedback. And, if you feel you need extra personal attention, individual coaching is also available on a case-by-case basis.

Stimulated Test Environments

The more practice you have at taking the full-length test, the less stress you'll have, and the calmer and more focused you will be on your actual test date. There are three full-length practice tests included in our course and several more full-length tests for you to practice before your actual SAT.

We're In Tuned with the American Culture

The SAT is an American test. As an American test, it carries with it American cultural biases that most non-American students may not understand. We are an American SAT prep group. In fact, part of our course is devoted to teaching students how to break the cultural biases. An American test is best explained and tackled by those trained in and familiar with the American culture. Our teachers are graduates of American universities and so are familiar with the American culture, as well as the American educational system.
